Deductions for delays.

12. 'If during any quarter the mails carried by the steamers *Victorian* and *Virginian* and the two eighteen-knot steamers are not conveyed from port to port at the average rate of the speeds specified in clause 5 for the said four steamers after omitting voyages and deducting delays as provided in the last preceding clause, or if during any quarter the mails carried by the fifteen-knot steamers required for the carrying out of this contract are not conveyed from port to port at the average rate of speed specified in clause 5 for the said fifteen-knot steamers, after omitting voyages and deducting delays as provided in the last preceding clause, then, and so often as the same shall happen, the contractors shall furnish to the minister the certified logs of the captains of the steamers showing the causes of the delays, and there shall be deducted from the subsidy payable to the contractors for the said quarter a sum equal to five per cent of such subsidy for every one-quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of this contract.

Average rate of speed between Dec. 15 and Feb. 15.

Maximum deduction.

'Provided further, that the total amount of the sum deducted in respect of such default or failure of either of the two classes of steamers mentioned in this clause shall not exceed the full amount of the subsidy allowed the said class for the quarter or period in question.

13. 'Subject to the provisions of clause 11 hereof, the other steamers required for the carrying out of this contract, and which may from time to time be approved by the minister as provided in clause 2 hereof, shall when in service be entitled to receive a subsidy which will bear the same proportion to the sum of £1,000 as the actual speed made by the said steamers will bear to the speed of fifteen knots per hour.

Freight and passenger rates.

14. 'It is further understood and agreed that the tolls to be charged in the way of either freight or passenger rates between ports on both east and westbound trips shall always under substantially similar circumstances and conditions, be charged equally to all persons, and at the same rate, whether by weight or otherwise, in respect of all traffic of the same description and receiving in carriage the like accommodation; and further, that no toll shall be charged which discriminates against Canadian merchants or shippers or against emigrants to Canada.

2. 'It is understood and agreed that during the season of open navigation on the River St. Lawrence covered by this contract, the terminal ports in Canada shall be Montreal or Quebec, and during the season of closed navigation on the St. Lawrence such terminal ports shall be Halifax or St. John, at the contractors' option, subject to the approval of the minister; and it is understood and agreed that the ports of call in France upon each eastbound and westbound trip shall be Cherbourg or Havre, or both, at the option of the contractors, and each eastbound trip to be extended at the option of the contractors to a port or ports in Great Britain; provided, however, that in any event the first port of call after leaving Canada shall be a port in France and that the last port of departure for Canada shall also be a port in France.

necessitate their being docked for repairs, the failure to perform the terms of this contract during such accident and the time reasonably occupied in such repairs, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for such repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

EXPLANATORY NOTES

In General Statement No. 1 (Pt. ii) of Imports and Goods entered for Consumption, The term 'Entered for Consumption' is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value of goods imported is governed by Section 40 of the Customs Act, which provides that the value of imported goods subject to ad valorem duty 'shall be the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada.'

In General Statement No. 3 (Pt. ii) of Exports, The term 'The Produce of Canada' includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

'Goods not the produce of Canada' shows the exports of foreign goods which had been previously imported.

Under the Regulations commencing July 1st, 1900, all *Export* entries are delivered at the '*frontier port of exit*,' and the totals thereof are credited to the respective ports where the goods pass outwards from Canada. In view of the more complete returns obtained under this system the additions heretofore made to the export statistics (prior to July 1st, 1900) under the head of 'Short returns' are now omitted.

In this report, the tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was *entered inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The trade by Countries, with the Dominion as a whole, is recorded in the General Statements of Imports and Exports.

The value of 'Goods the Produce of Canada' is their value at the time of exportation at the ports of Canada whence shipped.

The value of 'Goods not the Produce of Canada' is the actual cost of such goods.

The initials N.E.S. mean 'not elsewhere specified.'

" N.O.P. mean 'not otherwise provided for.'

The expression 'Ton' means two thousand pounds, and 'Cwt.' one hundred pounds.

" 'Standard hundred' when applied to deals, means 2,750 feet board measure.

" 'Ton,' applied to square timber, means 40 cubic feet.

In the shipping tables the tonnage is given in net tons.

SPECIAL NOTE.

Under an amendment to the Customs Tariff passed in 1903, provision was made for the collection of a surtax on the goods of any foreign country which treats imports from Canada less favourably than those from other countries.

It is to be particularly noted that the surtax does not apply to the goods of other countries imported from Germany, but only to articles which are the growth, produce or manufacture of Germany. Various classes of goods which are of *other than German origin* therefore appear in these Tables as imports from Germany, entered under the General Tariff and not subject to a surtax.
